

Request for Release of Transcript

Notice to parents of applicants in grades 1-8: Before any evaluation of your child's application for admission to St. Jude School can be undertaken, it is necessary that we have an updated school transcript as well as results from any academic or psychological tests which may have been administered to your child. Federal law insists, however, that parental permission be obtained before such records can be released from one school to another. We ask that you complete all the information requested and return this form to St. Jude School. Thank you for your cooperation.
